

CONTENT OF WORKSHOPS

Both Workshops will give teaching ideas and methods to make it easier for students to learn and absorb, whilst also giving a breakdown of steps and showing performance points. Intensive detail and examining points will also be covered.

In Workshop 2 there will also be a recap of existing combinations. A great chance to see you have it all correct to teach in 2018.

Ballet Grades -

These new NZAMD Ballet Grades aim to extend and progress the technique and dance skills learnt in earlier Grades along with musicality and an enjoyment of performance.

American Jazz Grade Three Combos -

Want your Grade Three student to succeed and have fun with updated combinations by Keith Clifton? Look no further! These new combinations are a winner!

Dances for American Jazz Major Grades -

New Major Grade Dances out for 2018 have an exciting new dynamic value to add to the existing work. These dances are a great alternative to the set dances, updated by Keith Clifton to showcase the latest trends in American Jazz and keep NZAMD progressing into the 2020s.

Intermediate Stretch Leap & Spin

A wonderful fun syllabus that extends from our Junior SLS and helps today's student spin, leap, and gain flexibility like the best.

RAD Teachers should be able to count these workshop hours towards their RAD CPD hours.

A proof of attendance certificate will be emailed to all attendees after the workshops have been completed and other necessary detail will be in the handouts given to teachers at the workshops.
